

GCSE Statistics Foundation and Higher LIVE Online Courses

GCSE Foundation 1 Year – 1-hour tuition per week £350

GCSE Higher 1 Year – 1-hour tuition per week £350

Each course runs for 36 weeks per year from September to June.
(Exam not included)

We cover Edexcel and AQA although it is always best to check with your local exam centres which exam boards they offer.

We are happy to discuss this with you to help you decide which group your child would benefit the most from.

All courses include:

- Tutor led course
- Weekly online group tuition (max. 7 students per group using Zoom)
- Weekly tuition sessions are recorded and available on your child's account for them to watch as many times as they need.
- Printable worksheets relating to the online session with the option of inputting your answers online for an immediate response or using your separate parent account to access answers and term dates
- Weekly drop-in sessions where children can speak to Dan 1 to 1 about any topic's they are unsure of.
- A certificate at the end of the course to say they have participated.

- Full support – we are available by email or Facebook at any time and aim to respond asap.

As home educators ourselves, we know how expensive it can be, so we have tried to put together plenty of payment options for people to choose from:

Live Courses - £350 per course

Option 1 – £350 full payment.

Option 2 – Deposit of £175 followed by £175 paid in December.

Option 3 – Deposit of £87.50 followed by 3 payments of £87.50 in September, December and March.

Option 4 – Deposit £50 followed by 6 payments of £50 in September, October, November, December, January and February.

Option 5 – Deposit of £80 followed by 9 payments of £30 in September, October, November, December, January, February, March, April and May.

*My son loves your maths lessons! It's the highlight of his week having a video call with Dan and the group... and that's not because we live a dull life or anything! He has developed so much in just a few months and is understanding difficult concepts. He is even showing his working out! I can't tell you what an achievement that is! He has always loved Maths, but this has brought him on so much. **Parent F***

GCSE Statistics Foundation and Higher RECORDED Online Courses

GCSE Foundation 1 Year – 1-hour tuition per week £250

GCSE Higher 1 Year – 1-hour tuition per week £250

Each course runs for 36 weeks per year from September to June.

We are happy to discuss any of these payment options in more detail with you.

DISCOUNTS: £50 reduction from total cost per additional sibling added to any course or per additional course purchased.

You can contact us at tuition@absolutemaths.co.uk or on our Facebook page - **Absolute Maths** – to book your place or for more information.

My 14 year old sons confidence has grown so much since starting with Absolute Maths, Dans way of teaching is great, during the live lessons I can hear my son participating and interacting with Dan, something he previously struggled with due to anxiety. The worksheets are really well laid out and the parent page is really useful. Emma replies to messages really quickly, nothing is too much trouble! Highly recommended. **Parent C**

I have two boys doing lessons with Dan. One in the live lessons and one using the recorded sessions. Both formats are absolutely brilliant. My eldest son will soon be in Year 2 of the IGCSE course and my youngest has just finished KS3 and will be starting IGCSE with Dan in September. Absolute Maths is allowing the boys to learn independently and that has given them such confidence in the subject. Dan and Emma are incredibly helpful, this is the future of education! **Parent L**
