

**GCSE Statistics Distance Learning LIVE Courses –
Small Groups**

GCSE Statistics – Foundation 1 Year

£395 – 1 hour tuition per week/36 weeks

GCSE Statistics – Higher 1 Year

£395 – 1 hour tuition per week/36 weeks

This course covers GCSE Edexcel and GCSE AQA.

All courses include:

- ❖ Tutor led course.
- ❖ Weekly online/zoom group tuition with a maximum of 7 students per group.
- ❖ Sessions are recorded (with only tutor's voice) and available on your child's account for them to watch as many times as they need.
- ❖ Printable worksheets relating to the online session with the option of inputting your answers online for automatic marking (answers can also be found on the parent hub).
- ❖ Weekly zoom drop-in sessions (just turn up to as many as you need) where children can speak to Dan, 1 to 1, about any topics/questions they are unsure of.
- ❖ A participation certificate at the end of the full course.
- ❖ Full tutor support – we are available by email or Facebook at any time and aim to respond asap.
- ❖ Access to 'How to Use a Calculator' videos.

All worksheets and online tests will be available on their learning hubs on a Tuesday. We record the first session of the week on a Tuesday and use this as the recording which you can also find on their online learning hub.

As home educators ourselves, we know how expensive it can be, so we have tried to put together plenty of payment options for people to choose from:

Small Group Live Courses - £395 per course

Option 1 – £395 full payment.

Option 2 – Deposit of £200 followed by a payment of £195 in January.

Option 3 – Deposit of £155 followed by 2 payments of £120 in October and February.

Option 4 – Deposit of £95 followed by 4 payments of £75 in September, November, January and March.

Option 5 – Deposit of £80 followed by 7 payments of £45 in September, October, November, December, January, February and March

Option 6 – Deposit of £80 followed by 9 payments of £35 in September, October, November, December, January, February, March, April and May.

Option 7 – Deposit of £39.50 followed by 9 payments of £39.50 in September, October, November, December, January, February, March, April and May.

We are happy to discuss any of these payment options in more detail with you.

DISCOUNTS: £50 reduction from total cost per additional sibling added to any course or per additional course purchased within the same academic year.

I simply cannot express my gratitude to Dan and Emma (the Absolute Maths team) enough. My 15 year old has intensely disliked and struggled with Maths throughout her school years and taught in a formal school setting, up until August 2020. Consequently, she developed a strong and self-limiting belief that she “ just couldn’t do Maths”. Well, what a transformation we have seen in her since she has been working with Dan, it’s been quite incredible to see just how much her confidence, knowledge and understanding has grown since she been doing her Maths GCSE with Dan. Not only do the pre-recorded lessons and weekly worksheets work well for us, in terms of providing flexibility and structure for her learning, the level of care and communication from Absolute Maths is frankly outstanding. So, thank you!!*Parent CM*

We are happy to discuss any of these payment options in more detail with you.

DISCOUNTS: £50 reduction from total cost per additional sibling added to any course or per additional course purchased within the same academic year.

After such hesitation changing our American school experience to UK home-schooling, we were relieved to find Absolute Maths. They are educating our 14 year old daughter with her first year of iGCSE and our 11 year old son in both lower and higher KS3. The process was completely painless, and I feel confident the change has been for the better. Thank you for your support and understanding Dan and Em. *Parent CV*
