

**IGCSE/GCSE Mathematics Distance Learning LIVE Courses –
Small Groups**

IGCSE/GCSE Mathematics – Foundation 1 Year

£395 – 1 hour tuition per week/36 weeks

IGCSE/GCSE Mathematics – Higher 1 Year

£395 – 1 hour tuition per week/36 weeks

IGCSE/GCSE Mathematics – Foundation 2 Years

£395 – 30 minutes tuition per week/36 weeks (per academic year)

IGCSE/GCSE Mathematics – Higher 2 Years

£395 – 30 minutes tuition per week/36 weeks (per academic year)

These courses cover IGCSE/GCSE Edexcel, GCSE AQA and GCSE OCR.

All courses include:

- ❖ Tutor led course.
- ❖ Weekly online/zoom group tuition with a maximum of 7 students per group.
- ❖ Sessions are recorded (with only tutor's voice) and available on your child's account for them to watch as many times as they need.
- ❖ Printable worksheets relating to the online session with the option of inputting your answers online for automatic marking (answers can also be found on the parent hub).
- ❖ Weekly zoom drop-in sessions (just turn up to as many as you need) where children can speak to Dan, 1 to 1, about any topics/questions they are unsure of.
- ❖ A participation certificate at the end of the full course.
- ❖ Full tutor support – we are available by email or Facebook at any time and aim to respond asap.
- ❖ Access to 'How to Use a Calculator' videos and exam question explanation videos.

All worksheets and online tests will be available on their learning hubs on a Monday. We record the first session of the week on a Monday and use this as the recording which you can also find on their online learning hub.

As home educators ourselves, we know how expensive it can be, so we have tried to put together plenty of payment options for people to choose from:

Small Group Live Courses - £395 per course

Option 1 – £395 full payment.

Option 2 – Deposit of £200 followed by a payment of £195 in January.

Option 3 – Deposit of £155 followed by 2 payments of £120 in October and February.

Option 4 – Deposit of £95 followed by 4 payments of £75 in September, November, January and March.

Option 5 – Deposit of £80 followed by 7 payments of £45 in September, October, November, December, January, February and March

Option 6 – Deposit of £80 followed by 9 payments of £35 in September, October, November, December, January, February, March, April and May.

Option 7 – Deposit of £39.50 followed by 9 payments of £39.50 in September, October, November, December, January, February, March, April and May.

We are happy to discuss any of these payment options in more detail with you.

DISCOUNTS: £50 reduction from total cost per additional sibling added to any course or per additional course purchased within the same academic year.

Absolute Maths is the best home education resource that we have found. The examples are clear and concise and easy for students to follow. My son's math's skills have grown by leaps and bounds.

We are happy to discuss any of these payment options in more detail with you.

DISCOUNTS: £50 reduction from total cost per additional sibling added to any course or per additional course purchased within the same academic year.

My daughter is really enjoying the course, and it's helped her confidence immensely. Everything is explained really well and she's understanding topics she's struggled with before. The course is very comprehensive, and Em and Dan are very responsive if any further help is needed via drop in sessions or doing a short video explanation. **Parent F**
